

Please be careful!

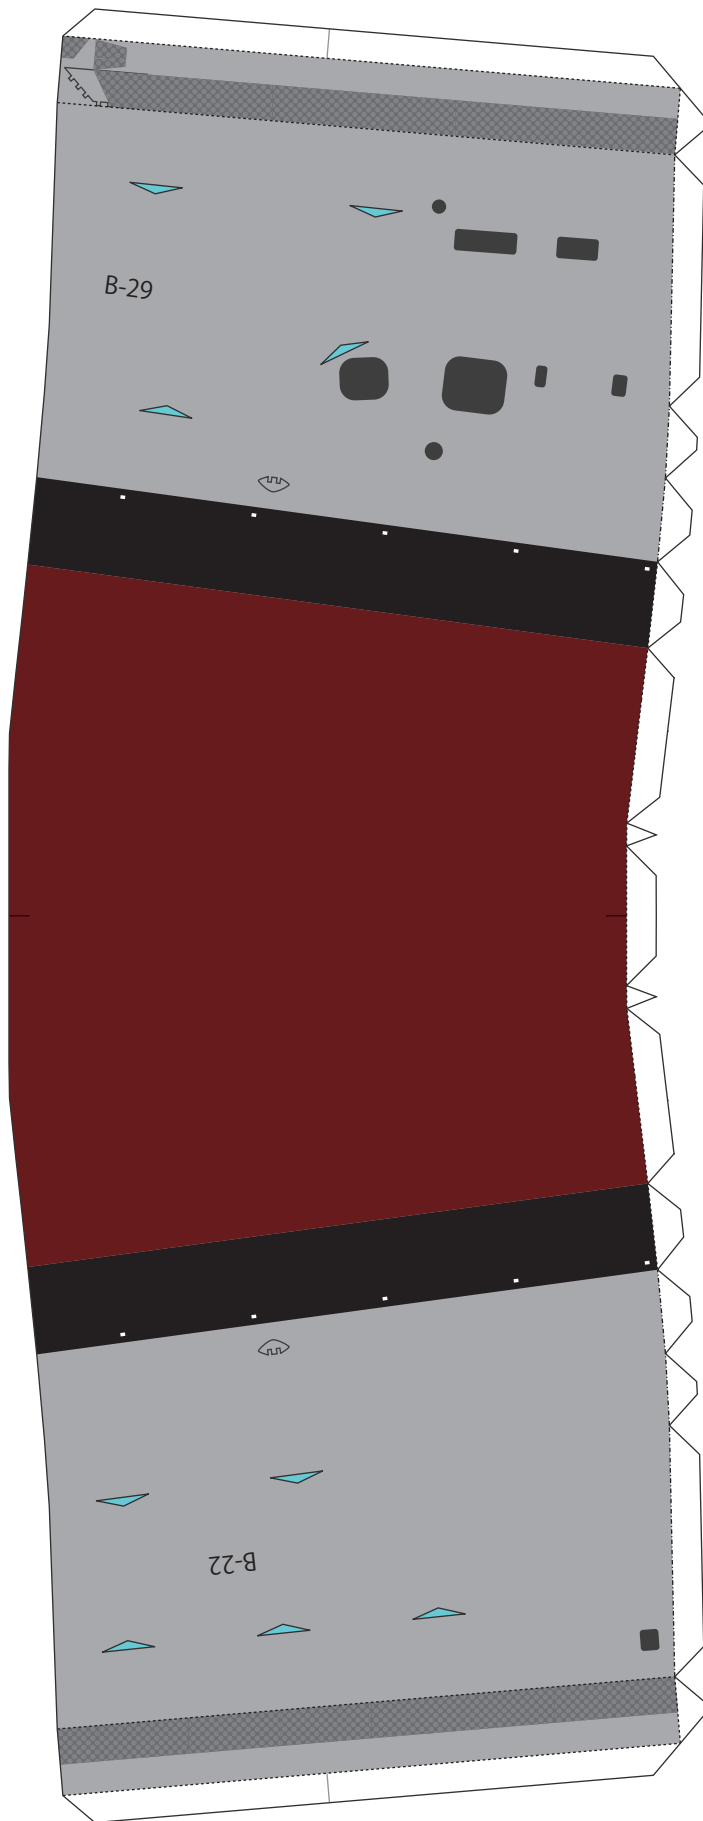

This paper model can be obtained free of charge from the paper craft website "Paper Model Studio" (<https://papermodel.jp/otona.html>). It is sold for a fee from some mail-order sites, but it was done without permission. Please note that it has nothing to do with this site.

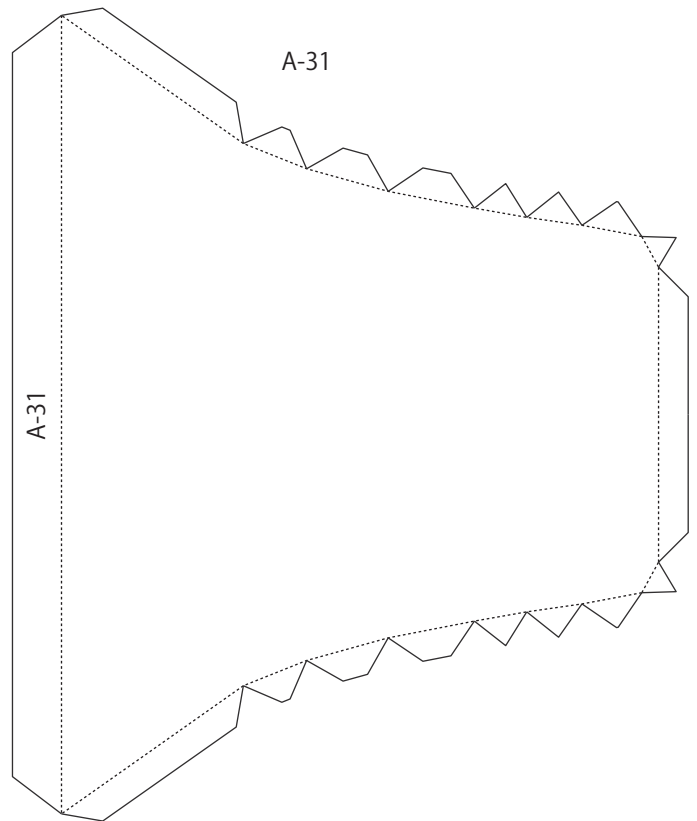

The explanation of the assembly method is available on the paper craft website "Paper Model Studio" (<https://papermodel.jp/cvn78-index.html>).

We recommend "Borderless printing" for the printer settings.
